

EQUIPMENT RENTAL PROGRAM

No-till, liquid manure, and lime spreading equipment are available to rent to county farmers. Services provided with this equipment include delivery and set up, maintenance, and operating instructions. We also can provide soil and manure testing, pH testing, nitrogen testing on corn, nutrient management planning, residue management recommendations, field scouting, etc.

Eight No-till Drills

Can be used to plant various hay crops such as alfalfa, timothy, orchard grass, brome grass, clovers, birdsfoot trefoil, reed canary grass, ryegrass, etc.

**Other common uses include small grains, cover crops, pasture renovations, soybeans, warm season grasses, and other narrow row crops.
10 foot planting width with 7.5 inch row spacing**

Eight No- till Corn Planters

These are four row planters that are set up to plant 30" and 36" rows. No tillage is required to plant with these machines. Sorghum attachments are available as well as row cleaners, dry and liquid fertilizer bins, and insecticide boxes.

Multi-Purpose Liquid Pump

These pumps will work in lagoons and straight walled pits up to 16 feet deep.

TWO Liquid Manure Tanks

These tanks hold 3350 gallons and are equipped with hydraulic brakes.

Three Damp Lime Spreaders

Can be used to spread lime and poultry litter. A 5 ton and two 8 ton capacity spreaders are available.

Equipment Scheduling for 2010:

Corn planters and lime spreaders call Cody Waltemire.

814-623-7900 Ext. 128 Cell: 814-977-1786

No-till Drills and Manure Equipment call Brad Yothers.

814-623-7900 Ext. 112 Cell: 814-494-2362

If you can't reach Cody or Brad try Jim Saylor for information and repairs.

814-215-8572
